## Kovaleski's "Key" Notes

Dear Parents:

Today, you are receiving the calendar for the 2019-20 school year. As you begin planning your vacations for next year, I would ask you to please consider not scheduling any vacations when classes are in session. So much of the learning that takes place during the school day happens through class discussion, student/teacher interactions, peer to peer collaboration, and hands-on interactive learning. Because of this, there is NO WAY to replicate the classroom experience for a child that has been absent and guarantee that he/she will receive all the information and experiences critical to

his/her learning. It also becomes very difficult/stressful for the student to make-up the work missed and provides numerous challenges for teachers.

We certainly encourage and understand the need for vacation and time spent with family. We are simply asking you to please consider scheduling those opportunities during the numerous times throughout the year when school is not in session.

Thank you in advance for your understanding and consideration!  
Blessings,  
Lisa Kovaleski
